Dear sir,

I am writing to express my strong interest in the Full Stack Developer position at ITP Media Group. With a background in technical assistance and a transition into the world of full stack development, I am excited to contribute my skills and passion to your dynamic team.

After the 5 year technical assistance journey ,over the past nine months, I have embarked on a transformative journey, immersing myself in full stack development through self-learning and hands-on experience. My journey has been marked by two significant projects that I am particularly proud of:

Project 1 – Website for finding flat and flatmates. (On going)

https://github.com/vishnupv1/flatUnity

- Designed and developed a website for finding flat and flatmates online, using **HTML, Tailwind CSS, Node.js, Express.js, MongoDB and Angular.**
- Using JWT Token for authentication.
- Used Angular Material 16.2.5.
- OTP based login using Twilio
- Used NgRX for state management.

Project 2 – Book selling e commerce website

https://github.com/vishnupv1/Booky.fun

- Designed and developed a dynamic e-commerce website for book sales using **HTML, CSS, Node.js, Express.js, and MongoDB**.
- Implemented shopping cart, OTP login, wish list, categorized search, and user-friendly admin panel for efficient management.
- Integrated PayPal for secure online transactions.
- Managed website banners to enhance user engagement.
- Deployed on **AWS** with **Nginx** for performance and scalability (www.booky.fun)

These projects, along with several smaller initiatives, have not only deepened my technical proficiency but also cultivated my problem-solving skills and a strong work ethic. They are all available for review on my GitHub profile: https://github.com/vishnupv1

In addition to these major projects, I have also completed various smaller projects that showcase my versatility and commitment to continuous learning. These experiences have allowed me to work with diverse technologies, collaborate effectively, and adapt swiftly to evolving requirements.

I believe that my journey into full stack development has equipped me with a unique perspective, blending my prior technical assistance background with newfound coding skills. My ability to communicate complex technical concepts clearly, honed during my previous role, has proven to be invaluable in my new endeavors.

I am highly enthusiastic about the possibility of joining ITP Media Group known for its innovative projects and commitment to excellence. Your team's forward-thinking approach aligns perfectly with my career aspirations.

Thank you for considering my application. I look forward to the opportunity of contributing to your team and becoming part of the exciting work at ITP Media Group.

Sincerely,

Vishnu P V
